Price \$2.00 Per Year In Advance

Council to Undertake New Main Street Sidewalk

This is the official record of the proceedings of Council of the Town of Wainwright at its regular meeting held on the 4th day of July, A. D. 1944, in the council chamber of the Town of Wainwright.

The members of Council present at this meeting were Mayor Middlemass and Councillors Robinson, Tory, Cork, Stafford, Coleman and Leggett.

The recorded proceedings of the Council at their regular meeting of June 6th, 1944, were read, and on motion of Councillor Stafford, were confirmed as written.

On motion of Councillor Robinson, that the Audit Report of Patriguin, Johnstone and Company, be received and filed.

A communication received from William J. Cody, and on motion of Councillor Robinson that the Secretary be instructed to investigate this claim under the Soldiers Exemption Act and make the necessary adjustments accordingly.

On motion of Councillor Cork, that the report of Town Constable Donaldson for the month of June be received and filed.

On motion of Councillor Stafford, that the action of the Property Committee, in leasing to the members of the Wainwright Board of Trade, the Agricultural Grounds, for the celebrations held on June 30th and July 1st, 1944 be endorsed by Council, and that the agreement covering same be filed with the records of this meeting.

On motion of Councillor Stafford that the letter of Mr. Everett Donovan, concerning the Transfer of Lot 19, Block 10, Plan 6445-V, to Mrs. Anita McNelly, be referred to the Town Solicitor for advice.

On motion of Councillor Stafford that the communication received from Mr. Sigurd Lefsrud, re prairie fire, be filed.

An application was received from Mr. George H. Pollard of Wainwright, to purchase Lot 18, Block 37, Plan 945-Z, for the sum of \$22.50, and on motion of Councillor Stafford that this be accepted pending the passing of the necessary by-law.

On motion of Councillor Stafford, that the application of Mrs. Dorothy E. Thompson, to purchase Lot 9, Block 24, Plan 6445-V, for the sum of \$35.00 be accepted by Council, pending the passing of the necessary by-law.

On motion of Councillor Robinson, that the report of the Finance Committee be accepted as submitted and that the Mayor and Secretary-Treasurer be authorized and instructed to pay the individual accounts listed in this report in the total amount of \$1282.26 as follows:

Alberta Gov. Telephone	\$ 13.34
Calgary Power Co. Ltd.	174.70
Inspector of Income Tax	52.20
Joe Donaldson, salary	118.82
P. E. Patterson, salary	115.52
Fred Sheffield, salary	216.66
Joe Wright, salary	25.00
D. Pawsey, salary etc.	138.87
Pro. Treas. Mothers' Allow.	15.00
Alberta Municipal Guide	2.00
Bond Motors	3.94
Arthur A. Voice	132.00
Pro. Treas. Dept. Pub. Works	24.00
Joe Wright, fire call	2.00
Tony's Service Station	4.56
Wain. Machine Shop	8.25
Wainwright Star	10.10
Atlas Lumber Co. Ltd.	158.30
A. C. Armstrong Ltd.	67.00

On motion of Councillor Stafford that the request from Mr. Earl Young, for the use of Lots 23 and 24, Block 6, Plan 6445-V, be tabled and Secretary instructed to write Army and other officials for references and that the Property Committee get Solicitor's advice regarding proposed improvements on this property.

On motion of Councillor Leggett that assent be given to the introduction of a by-law concerning the sale of Lot 9 in Block 24, Plan 6445-V, to Mrs. Dorothy E. Thompson of Wainwright for the sum of \$35.00.

On motion of Councillor Coleman that, by-law No. 380, receive its first reading.

By-law number 380 was then read for the first time.

On motion of Councillor Stafford that By-law Number 380, be read

for the second time.

By-law Number 380 received second reading.

On motion of Councillor Cork, that by unanimous consent, By-law Number 380, receive its third and final reading and that it be assented to as in the original motion and that the Mayor and Secretary-Treasurer be authorized and instructed to sign same and affix thereto the Corporate Seal of the Town of Wainwright.

By-law Number 380 was then read the third time and declared finally passed.

On motion of Councillor Leggett, that assent be given to the introduction of a By-law concerning the sale of Lot 18, Block 37, Plan 945-Z, to George H. Pollard of Wainwright, for the sum of \$22.50.

On motion of Councillor Coleman that By-law Number 381, receive its first reading.

By-law Number 381 was read for the first time.

On motion of Councillor Stafford that By-law Number 381, be read for the second time.

By-law Number 381 received its second reading.

On motion of Councillor Cork, that By-law Number 381, by unanimous consent, receive its third and final reading and that it be assented to as in the original motion and that the Mayor and Secretary-Treasurer be authorized and instructed to affix their signatures thereto together with the Corporate Seal of the Town of Wainwright.

By-law Number 381 received third and final reading.

On motion of Councillor Robinson, that the Financial Statement for the month ending June 30th, 1944, be accepted as received and ordered incorporated in the proceedings of this meeting.

On motion of Councillor Tory, that consideration be given to the building of a cement sidewalk on the east side of Main Street, between 6th and 8th Avenue, six feet wide, four inches thick, with a six inch curb and that Council recommend that this project be undertaken providing that labour and material are available and that tenders for same be called for through the medium of the Wainwright Star.

On motion Council was regularly adjourned.

Threshing Outfits Now Can Cross Border

Reciprocal arrangements have been made between the United States and Canada, permitting grain threshing outfits of each country to cross the Border freely and to work in the country, according to an announcement made by Hon. Humphrey Mitchell, Minister of Labour, today.

Under the special arrangements certain Border crossing formalities will be temporarily suspended from July 7th, to permit the exchange of threshing equipment and crews between Canada's Prairie Provinces and adjacent western States of the United States.

Canadian threshing outfits may remain in the United States until September 15th under this season's arrangement, United States machines and crews may enter Canada when their services are required, but may not remain longer than December 31st. In their announcement of the plan, the Governments of both countries point out that similar arrangements were in operation during the last two years, and will continue for the duration.

The agreement takes account of the fact that the grain harvesting in the United States is earlier, as a rule, than in Canada, and that not only will the Canadian crews be back here for harvesting, but that American crews will also be entering Canada when needed.

Mr. Mitchell explained that the negotiations had involved the co-operation of the Immigration Branch and the Dominion and Provincial Departments of Agriculture.

O/S Jack McLean is here to spend a short leave with friends in town.

Big Attractions For Lloyd Exhibition

That "Terrific Three Day and Night Event," the Lloydminster Exhibition, Monday, Tuesday, and Wednesday, July 24th, 25th and 26th, is billed as a "Great Show for a Momentous Year." The Exhibition presents a Agriculture in panorama and also provides much needed fun and relaxation from the serious times that prevail today.

George Hamilton presents another top-notch program before the grandstand. "The Fascinations of 1944" featuring stars of screen, stage, and radio, among whom are such performers as the Deep River Boys, a group of colored singers, N.B.C. and C.B.S. artists, they have also been featured on the Kate Smith Program: Al Gordon and his Dogs, an animal act extraordinary, considered one of the best animal acts in show business today. Al and Bob Harvey, Canada's No. 1 comedians. You have heard these boys during the last few years on the Maple Leaf Milling Program over the C.B.C. The Callahan Sisters a Tap Dance Team, direct from the best Night Clubs in New York; The Doreas, a girl musical act; The Lowells, an acrobatic team; and Roy Barret, the clown and you have a performance that will be received with same enthusiasm as last years show.

The evening performance concludes with a breath taking Grand Patriotic Musical Finale, "The Victory Parade."

In addition to these dynamic attractions, there will be Horse Running Races, Football Tournaments, a grand agricultural display and fun on the midway.

Results of Recent T.C.M. Exams Here

The following is a list of successful candidates in examinations held recently by the Toronto Conservatory of Music in Wainwright. The names are arranged in order of merit.

PIANO
Grade X — Pass — Shirley McKenzie; Pauline A. Dixon.

Grade IX — Pass — Audrey Smith; Doreen Adams, Jacquelyn Billing (equal).

Grade VIII — Honours — Joy E. M. Merchant.

Grade VII — Honours — Peggy L. Allen, Pass — Elizabeth Schumacher; Audrey Symes.

Grade VI — First Class Honours — Lenore Wright, Honours — Jean M. Squair; Patricia Madkins. Pass — Audrey Adams; Harry Alwood, and Kirsty Prestleen (equal); Blodwen Jones; Shirley M. Woodward.

Grade V — Pass — Deveda Fahner, Elvina Sonoff (equal).

Grade IV — Pass — Frances Patterson.

Grade III — First Class Honours — David Marsden, Honours — Gertrude Clegg, Pass — Anne E. Alexander.

Grade II — Honours — Lorraine Wilson; Jeanne Parsons. Pass — Kay Goodall, Delores Guthrie (equal); Isobel Walrath.

VIOLIN

Grade VI — Honours — Gwenyth Heffernan.

Grade V — Pass — Patrick Buckton.

THEORY

Grade V (Harmony) — Pass — Zerah Clegg; Anne McCarthy.

Grade IV (Harmony) — Pass — Shirley McKenzie.

Grade III (Harmony) — Honours — Lenore Wright; Audrey Smith.

Grade II — First Class Honours — Gwenyth Heffernan; Patricia Madkins. Honours — Audrey Adams.

Grade I — First Class Honours — Kirsty Prestleen. Honours — Frances Patterson. Pass — Audrey Symes.

SCHOOLS WILL CLOSE

COMING WEEK END

Both public and high schools are to close for the summer holidays at the end of classes on Friday afternoon next, and so far as information is available will not re-open until Monday, October 2nd next.

Friday last saw the Grade XII pupils commence their annual exams, while those for Grade IX were started on Monday morning. All will be completed by the week end.

Wainwright Flier Is Given D.F.C.

OTTAWA—Award of the Distinguished Flying Cross to two members of the R.C.A.F. serving overseas was announced last night by air force headquarters. The awards D.F.C.

FO. E. J. Keefe, Wainwright, Alta. (Since reported killed in action.)

FO. J. W. Mathers, Vancouver. FO. Keefe was cited for "prompt and courageous" support of his flight leader during an attack on a strongly-defended enemy vessel.

Bank of Montreal Crop Report No. 4

General — Wheat in the Prairie Provinces is largely in shot blade, and early-sown grains are heading. Crop conditions are favourable in Manitoba and most of Saskatchewan but, vary in Alberta. With the exception of the extreme south-west and west-central districts of Saskatchewan and the Peace River, east-central and south and south-eastern districts of Alberta, moisture is adequate and growth is healthy and even. Losses from hail and pests have been light. Sugar beet crops are fairly good.

Crop conditions in Alberta are only fair in the Peace River, east-central, south and southeastern districts, moisture being inadequate and growth uneven. Elsewhere recent rains have maintained moisture reserves and prospects are favourable. Weeds are prevalent. Pastureage is fair to good. Hay crops generally are below average. Sugar beet and vegetable crops are fairly good.

Saskatchewan—Crop conditions generally are good, but in many districts further precipitation is required soon to ensure normal development. Growth is fairly heavy, except in the extreme south-west and west-central areas, where moisture is insufficient. Wheat is mostly in shot blade and early sown crops are heading. Scattered losses are reported from root rot, grasshoppers and wire-worms, but on the whole damage is light.

In Manitoba, prospects continue favourable. Crops show a healthy even growth with wheat largely in the shot blade and early sown grains heading. Moisture supplies are ample for the present, following recent heavy rains. Some damage has been caused from flooding on low lands. Sugar beets are progressing, but excess moisture will cause some loss. Pastureage is good. Damage from pests and hail is negligible.

Mr. King's Anniversary Is National Event

Celebration of Mr. King's 25th anniversary as leader of the Liberal party is taking on national proportions. Perhaps no political leader so long in public affairs has more friends and fewer enemies, than the Prime Minister. On June 8, he was 17 years Prime Minister of the Dominion. This record of length of service at the head of national affairs is exceeded only by Sir John Macdonald, who was Prime Minister for 19 years. Sir Wilfrid Laurier was premier for a little more than 15 years. Having announced that there will be an election within a year, Mr. King will have to be returned to power to establish a record as prime minister. Anniversary dinners for Mr. King will be held in all parts of the dominion.

IN MEMORIAM

In loving memory of my dear wife, Sally Arkwright, who passed away on July 14th, 1941.

The depths of sorrow we cannot tell Of the loss of one we loved so well;

And while she sleeps a peaceful sleep Her memory we shall always keep Ever remembered by her loving husband.

WILLIAM ARKWRIGHT.

Rosedale Couples Hold Wedding Anniversaries

On Sunday, July 9th, Mr. and Mrs. W. F. Redmond, on their 25th wedding anniversary and Mr. and Mrs. R. B. Empey, on their 49th anniversary were surprised at the home of Mr. and Mrs. Jas. Redmond. Many relatives were there to greet them.

A lovely chest of silver in Adoration pattern, was presented to Mr. and Mrs. Redmond by their children. Their nieces and nephews and other relatives gave a chesterfield chair and magazine table. Mrs. Reynolds presented an Aladdin lamp to Mr. and Mrs. Empey.

Mrs. Reynolds poured tea at the bride's table which was decorated in pink and white. Mrs. Redmond cut the cake. The host and hostess, assisted by Mr. and Mrs. F. C. Redmond, served a buffet luncheon.

Miss Empey, on holiday from Sault Ste Marie, took pictures of the company.

City Concert Party At Buffalo Camp

Under the auspices of the War Services Council of Northern Alberta, in conjunction with the Knights of Columbus War Services a most enjoyable concert was presented in the drill hall at the Buffalo Camp on Sunday last.

This comprised an afternoon performance for the men in the hutted area, and an evening show for those in tents, by the MacDonald troupe of Edmonton with a cast of seventeen members. Mr. B. C. Garrity acted as chairman at both performances.

Lt.-Col. Drummond, commanding officer 24th R.C.A., expressed appreciation and thanks on behalf of the officers and men in camp.

During their stay here, those taking part were guests of the officers' mess of the 24th Field Regiment, at luncheon.

Following the evening performance, Brigadier Beattie expressed his gratitude at such an enjoyable affair, and later the bus-load of entertainers left for the city. It is hoped they will be back at least once each month.

Valid Dates of T-Coupons Explained

Tea and coffee rations are on the basis of two coupons a month. Valid dates are on the second and fourth Thursday of each month. But when a month has five Thursdays, there is a three week span between coupon validity dates.

Ration officials of the Prices Board have issued this explanation of the lapse between valid dates of T coupons from Thursday June 22 to Thursday July 13.

A similar three week period comes between August 24 and September 14, and again between November 23 and December 14.

National Parks Open to Visitors

National parks in Alberta are open to visitors, even though the railway hotels are not open owing to war conditions. It is pointed out by officials of the Alberta Motor Association.

Recently, residents of the parks reported that there was evidence of a general impression that the parks were closed to all traffic. Such is not the case.

The Jasper-Lake Louise scenic highway was reported to be in good shape by travelers who covered the route recently. It is anticipated that there will be a good number of tourists travel that way this season.

Federal park officials have stated there are indications that there will be considerable holiday business this year. One large hotel is reported to have been booked up for the entire month of July.

This year, owing to the war, many car owners are expected to make only short trips to the parks. Instead of traveling long distances, thus conserving fuel and tires. Holiday groups are being organized for park tours.

August 8th Next Set For Provincial Elections

Alberta electors will go to the polls in a provincial general election on Tuesday, August 8, it was announced Friday by Premier Ernest Manning. Nomination day will be Saturday, July 29.

Dissolving the ninth Legislature to be elected since Alberta was formed in 1905, His Honor Lt.-Gov. J. C. Bowen signed a writ of election setting the voting date at 10:50 a.m. Friday in his Legislative Buildings office. The dissolution and election orders were taken to His Honor by Premier Manning a few moments earlier.

Mr. Manning also announced that provision will be made in the next Legislature for soldier representation. Three members of the armed forces will be elected by Alberta servicemen and women who are stationed outside the province and overseas. If necessary, a special session of the Legislature will be called this fall to make provision for the soldier representation.

The soldier representatives may be men or women, one to be elected from each of the three Canadian services. They will be non-partisan members.

Soldier voting for the three armed service representatives will not take place on the general election date, but later in the year. However, Alberta servicemen stationed in the province will vote as in previous years, on the date set for civilian polling.

Robert A. Anderson, clerk of the executive council, will be in charge of voting arrangements, as chief electoral officer for the province.

Edmonton city returning officer will be H. H. Crawford, and City Clerk J. M. Miller will be Calgary returning officer. City polls will be open Aug. 8 from 9 a.m. to 7 p.m. while at country points voting will take place between 9 a.m. and 6 p.m. Party standings in the Legislature just dissolved are: Social Credit, 35; Independent, 15; Liberal 3; C.C.F., 1; Labor, 1; Independent Social Credit, 1; vacant (Calgary), 1.

Inclusion of three military members in the Legislative Assembly will raise its membership to 60. Somewhat similar provisions were made in the last war, when three soldier-members were elected.

Enumeration of voters will start immediately in all 49 ridings. In the 1940 general election, there were 427,245 names on the voters' list. This number will be exceeded in the coming election, due to reduction of the voting age to 19 years, by an Act of the 1944 Legislative session.

Premier Manning's government was sworn in on June 1, 1943, after the death at Vancouver on May 23 of Premier William Aberhart, and the consequent dissolution of the Aberhart cabinet. The first Social Credit government in the world was elected in Alberta in August, 1935. It was re-elected in March, 1940.

The premier's election statement is below:

"When my colleagues honored me by placing me at the head of the Social Credit government as successor to our illustrious former leader, the late William Aberhart, I determined that within a reasonable

length of time after the people of the province had had an opportunity to judge for themselves, the efficiency of our continued efforts in their behalf, we would give them their rightful opportunity to declare their approval of our administration.

"For nine years the people of Alberta have had a Social Credit government, and they have the evidence of our record upon which to base their judgement. During that period their government has raised Alberta to the leading position in Canada in progressive legislation and advanced social services in the field of public health, education, labor laws, agriculture and social welfare.

Alberta Grown Berries Priced

Edmonton—Maximum prices for Alberta grown strawberries and raspberries are established by the Wartime Prices and Trade Board, f.o.b. growers shipping point.

Strawberries, sold by producers to consumers between June 25 and July 15 will be under ceiling prices of 16½ cents a pint box, 29½ cents a quart box, and 26 cents a pound, when sold in bulk.

Strawberry growers' prices to retailers are set at 13½ cents a pint box; 24½ cents a quart box; and 19½ cents per pound sold in bulk. Raspberry prices are established for the season. Producer to consumer they may sell at 24½ cents a pint box; 44 cents a quart box; and 35 cents a pound, sold in bulk.

Producer to retailer, prices will be 19½ cents per pint box; 36 cents a quart box; and 29 cents a pound, in bulk.

These prices prevail for each of the Prairie provinces.

Benefit to Farmers Over \$5,500,000

Even under war conditions, with import of agricultural machinery and implements restricted because of requirements for the fighting forces, Canadian farmers will save more than \$5,500,000 a year by the removal of tariffs on these items. This was disclosed in a statement to the house that imports from the United States of this class of products is now amounting to about \$36,000,000 a year.

When the war is over and United States implements can be bought by Canadian farmers, and when to the competitive price, the benefit to Canadian farmers will increase many times. One of the biggest gains will be on parts for repairs of articles that will still give service if properly fixed. It is believed here that, all told, Canadian farmers will save upwards of \$100,000,000 a year for the first six years after the war, because of the lower price on farm implements of all kinds due to the abolition of customs duty.

WAINWRIGHT, WEDNESDAY, JULY 12th, 1944

RATIONING FREEDOM

In theory, the freedom of the in-
 dividual in a democracy in normal
 times is legally limited only at the
 point where its exercise would in-
 terfere with or impede the freedom
 of another. In wartime, freedom,
 like many other things, must be
 rationed, and at times it is in very
 short supply.

Practically, even in normal times,
 freedom is rationed more effec-
 tively by circumstances than by
 law. Anyone will be free to buy a
 ticket for a luxury cruise around
 the world when travelling again
 becomes attractive, but many will
 still have to stay at home or put up
 with a less expensive vacation trip.
 Circumstances of purchasers will
 still make feasible the production
 of motor cars for a wide range of
 incomes, although anyone will be
 free to buy sixteen-cylinder limous-
 ines.

A possible hypothesis to account
 for the state of mind of some of
 those who desire a post-war con-
 tinuance of wartime controls is
 that, in some respects, these con-
 trols have brought about economic
 equality. A wage-earner in a war
 industry has a better chance of get-
 ting permission to buy a new tire,
 if he needs his car to get to his
 work, than a millionaire who lives
 near a street-car line. The romantic
 theme of the Cinderella story seems
 to have come true.

The great difficulty of carrying
 wartime rationing of freedom into
 times of peace is that it would in-
 volve a moral judgement on the
 part of a government official. Dur-
 ing the war, there is a standard
 which the oil controller, the rubber
 controller and others of our
 temporary dictators can apply or
 misapply in determining the rela-
 tive merits of two citizens, namely
 which one of them is the more im-
 portant to the winning of the war.
 But the peacetime standard would
 have to be which is the more use-
 ful citizen. Can civil servants be
 found whose judgement will be un-

animously accepted in applying
 this broader standard? Only an
 angel or a fairy godmother can be
 trusted to judge between Cinderella
 and her wicked stepisters, and
 neither the Civil Service Commis-
 sion nor the patronage system pro-
 vide for supernatural appointments
 —The Printed Word.

**A WEEKLY EDITOR
 LOOKS AT
 Ottawa**

*White space,
 for the weekly newspaper of Canada*

The urgent plea has gone out for
 10,000 extra workers in the expan-
 sion of Canada's ammunition pro-
 duction program. Do you know that
 this year the shell program will
 absorb 16% of our total steel sup-
 plies, or about twice as much as
 used for that purpose last year. The
 Allies are not running short of
 ammunition, but they're using it up
 as fast as the tempo of the battle every
 where increases.

At Waterloo, in 1815, the British
 fired 37 tons of ammunition in one
 day. At Passchendaele in World
 War I, the Canadian Corps averag-
 ed 1,370 tons every 24 hours. But
 today a single 25-pounder gun can
 fire 1 1/2 tons in half an hour. Dur-
 ing the battle of the Moro River in
 the Italian campaign, our 25-pound-
 er batteries pumped 250,000 rounds
 of ammunition, more than 3,000
 tons of the stuff, into German lines.

The fire power in Normandy
 these days may make that figure
 look like a country fair fireworks
 display.

Next-of-kin of soldiers overseas
 should send vacation-time changes
 of address to the Director of Re-
 cords, Department of National De-
 fence, Ottawa, or if they cannot be
 easily reached give the name and
 address of relative or friend to
 whom any casualty telegrams could
 be delivered. Dates of arrival and
 departure from away-addresses
 should also be given.

The Consumer Branch suggests
 to rural women that they ask the
 hired man for his ration book im-
 mediately on arrival, pointing out
 that with it they can serve better
 meals. Quite a number have report-
 ed to Ottawa they have had to
 share their family's sugar, tea,
 coffee and butter, because the hired
 men forgot or lost their books. In-
 cidentally, anyone faced with get-
 ting meals for threshers or other
 temporary help, hired for less than
 4 days, should apply to their local
 Ration Board for transient labor
 coupons.

The House of Commons has ap-
 proved a bill providing for voting
 by service personnel. In brief, ex-
 cept prisoners of war, they will
 vote direct, not by proxy. For
 prisoners of war, officially record-
 ed next-of-kin can vote for them by
 proxy. A "war service elector" em-
 braces those in the army, navy and
 air force, mercantile marine and
 any Canadian serving on a ship of
 Canadian, British or Allied registry.
 The question of age is immaterial.
 One who has previous residence in
 this country, a British subject, who
 enlisted in British forces subsequent
 to January 1, 1937 can also vote.

Canada spent \$912 millions in
 Mutual Aid in the first 10 months
 of the Board's operations, out of
 which over \$723 million went to
 Britain. You may be astonished to
 know that included in shipments
 to Britain were 768 aircraft; 3,075
 armoured fighting vehicles; 72,585
 mechanical transport vehicles;
 519,552 machine guns and small
 arms; 551,990,000 rounds of am-
 munition; 6,679 farm implements;

1,052 ships, besides large quantities
 of farm products and food. We sent
 our first shipment of mutual aid to
 Russia on August 26, 1943. To the
 end of March we supplied them
 with 13,500 tons of aluminum; 11,
 700 tons of lead; 1,500 tons of nick-
 el; 120,000 tons of flour and 10,000
 tons of wheat as well as complete
 lines of shell-making equipment.
 Despite limitations of transporta-
 tion, China got munitions shipped
 complete and all ranges of guns,
 vehicles and wireless equipment.
 Australia and India were sent
 material valued at over \$21 million.

Ottawa advises next-of-kin of
 Canadian prisoners in Japanese
 hands not to put too much credence
 in radio messages from Japan from
 their relatives. Many messages are
 released for propaganda purposes.
 Our service handles them if they
 are deemed reliable and sends them
 through. Both the United States and
 Canada have organizations that
 look after this sort of thing, so
 don't be taken in by some unscrup-
 ulous people who offer to send you
 a message they picked up on the
 radio, "for a consideration."

June 3 was a big day in Canadian
 Red Cross history. It marked pack-
 ing of the 10,000,000th food parcel
 for Canadian and British prisoners
 of war. This means that Canadian
 women packed 55,000 tons of food.
 Think of it! The Canadian and
 British prisoners get one parcel
 weekly and those of allied coun-
 tries receive one a month. New pack-
 ing plants are to be opened as the
 society right now has only capacity
 for putting up 100,000 parcels week-
 ly in five plants. They'll have to in-
 crease that to possibly 100,000 a
 week.

Sound advice in connection with
 coal supplies as summer will soon
 be on the wane: place full orders
 for coal at once; accept it when-
 ever your dealer can deliver it, and
 take whatever suitable kind he can
 deliver. It is also suggested that
 now is the time to clean heating
 equipment; to have it in good op-
 erating condition and have storm
 doors and windows repaired ready
 for next winter. We all know we
 should follow this advice but some-
 times procrastinate.

The production of commercial
 mixed feeds has been stepped up
 tremendously in Canada during the
 past four years, and preliminary
 figures for 1943 show an output of
 nearly 800,000 tons compared with
 about 650,000 tons in 1942 and
 376,000 tons in 1939.

Farmers will be interested in this
 answer to the enormous disappear-
 ance of feed grains in Canada dur-
 ing the past two years. Since 1941,
 total number of cattle, hogs, horses,
 sheep, hens and chickens on our
 farms increased about one-third.
 Hens and chickens rose by 14,000,
 000; hogs by nearly three million
 and cattle 1,250,000. During the
 crop year 1942-43 the quantity of
 oats consumed for livestock and
 poultry feed totalled 433,000,000
 bushels, while barley was fed to
 the extent of 146,000,000 bushels.
 Besides this not less than 94 million
 bushels of wheat went towards the
 maintenance of Canada's live stock
 and poultry. Preliminary estimates
 are about the same for the current
 crop year, although less oats, more
 wheat likely to go to animals.

David H. Gibson, C.B.E., Presi-
 dent of the Navy League of Canada
 has reported that nearly two mil-
 lion visitors to the league's hostels
 and clubs on the east coast were
 looked after last year, a marvellous
 contribution to the war effort. Up-
 wards of 80,000 naval ratings and
 Wrens enjoyed the privileges of the
 Navy League's clubs at Digby alone,
 and another 23,360 at Pictou.

Creamery butter production in
 May moved up to 33,918,942 lbs.,
 which is 1,750,000 lbs over the same
 month last year. This reverses the
 trend reported in the preceding
 month when it declined 13.6%.

Ottawa News Letter

BRACKEN MEN THIRD
 GROUP IN DOMINION

OTTAWA—Saskatchewan provin-
 cial election results indicate that
 the real contest in the next federal
 election will be between the Liber-
 als and the C.C.F. In the sense of
 popular and geographic representa-
 tion, the Liberals remain the only
 national party with members in
 Parliament from every province.
 The C.C.F. have no Commons repre-
 sentation in four of the nine prov-
 inces, Alberta, Nova Scotia, P.E.I.
 and Quebec and have only one M.P.
 out of the 82 from Ontario.

There are no Progressive Con-
 servative M.P.'s from Alberta, P.E.I.
 or Quebec and only one each from
 Manitoba and Nova Scotia. The fact
 that in the Saskatchewan voting the
 Progressive Conservatives were
 unable to elect a single member,
 despite Liberal losses, is taken here
 to mean that the C.C.F. has sup-
 planted the Bracken group as the
 second party in the Dominion.
*Liberals will not seek
 Coalition with Tories*

It has become known here that
 the Liberals do not intend to work

toward any coalition or joint gov-
 ernment in the federal field. They
 will run a completely independent
 campaign, seeking election on their
 war record and their social and eco-
 nomic legislative program. They
 will enter into no bargains with
 other parties. The Progressive Con-
 servatives, on the other hand, have
 shown distinct signs of linking up
 with the nationalist Duplessis group
 in Quebec, the Union Nationale.
 Since the speech of C. P. McTague,
 new national party chairman, at
 Guelph, it seems the Progressive
 Conservatives are going to try to
 capitalize on the pro-conscription
 sentiments outside of Quebec, and
 through Duplessis, on the anti-con-
 scription feeling in Quebec.

**Liberals retain
 Large popular vote**

Analysis of the Saskatchewan
 vote shows that only about 3,000
 more voted radical than in 1938.
 But these ballots went to the C.C.F.
 instead of being divided among
 different parties. The liberal party
 retains the substantial popular vote
 of more than 130,000 while the
 Progressive Conservative hit the
 new low of probably less than 50,
 000. The C.C.F. capitalized on every
 grievance which the depression
 before the war and prosecution of
 the war presented. C.C.F. success
 in cities, towns and villages is at-
 tributed to irritation of the voters
 at price, wage and selective service
 controls. Collection of necessarily
 high income taxes at the source,
 cutting down wages and salary
 cheques, is also believed to account
 in good measure for the urban pro-
 test vote. The feature of the elec-
 tion is that Progressive Conserva-
 tives were unable to win back from
 the C.C.F. and radical parties, the
 support which swung away from
 the Anderson government in 1938.
 The Anderson government was
 formed in 1929 with a popular vote
 of only 131,000 as against 165,000
 for the Liberals, and retained office
 only with the support of the radical
 groups led by present heads of the
 C.C.F.

**Family allowances
 Start July, 1945**

Details of the biggest social
 measure in Canada's history, family
 allowances based on the number of
 children under 16, have been pre-
 sented to Parliament. Starting July
 1, 1945, payment will be made in
 respect to 3,450,000 under 16 years
 of age. The outlay will be about
 \$200,000,000 a year and every cent
 of this will add to the purchasing
 power of low-income groups, en-
 abling them to buy goods and pro-
 duce made or produced in Canada.

Cheques will go to the parent
 who supports the children. In the
 case of men overseas the cheques
 will go to their wives at home.
 The scale is: \$5 a month for a
 child under 6; \$6 a month for a
 child between 6 and 10; \$7 a month
 for a child between 10 and 13 and
 \$8 a month for a child between 13

Are YOU Getting the BEST POSSIBLE CREAM RETURNS ?

We know that you wouldn't
 deliberately throw money out the
 window—but unless you have
 carefully investigated the best
 possible cream returns that can
 be yours—then perhaps that's
 exactly what you are doing.

But if you HAVE made a care-
 ful investigation, then this mes-
 sage is not for you—because
 we know you have already re-
 alized the advantages that the
 EDMONTON CITY DAIRY of-
 fers.

When you deal with the ED-
 MONTON CITY DAIRY—not
 only do you get the highest grad-
 es possible, but also the highest
 current prices are granted.

As if this were not sufficient
 the EDMONTON CITY DAIRY
 has streamlined their grading
 time into quick efficient service,
 so that not a minute is lost be-
 tween your cream's arrival, up
 to the final dispatching of your
 cheque. Which means, just this
 —your cream arrives in the
 morning—your cheque goes
 out at night!

But we still want you to find
 all this out for YOURSELF—
 so send a TRIAL can or instruct
 your trucker to deliver your
 cream to the.

**EDMONTON
 CITY DAIRY
 LIMITED**

and 16. Where there is a large
 family the rates will be lower by
 \$1 a month for the fifth child; by
 \$2 a month for the 6th and 7th
 children and by \$3 a month for the
 8th and any additional children.
 Thus payments will run from \$5 a
 month to \$40 and are expected to
 average about \$6.35 a month per
 child.

Farm Notes

CUT HAY EARLIER TO SAVE PROTEIN

That there is special virtue in the grass grazed in spring every farmer knows. To conserve the protein in the herbage fed to livestock whether as pasture, hay or silage, several methods have been applied with varying degrees of success. There was the Hohenheim system of pasture improvement by means of liberal fertilizing and rotational grazing of fields subdivided. The practice was introduced to Canada in 1928 when C. F. Bailey of the Experimental Station at Fredericton, N.B., commenced his now internationally known scheme which became the pattern for many to follow. While the system of rotational grazing has undergone modification the principle of controlled grazing or pasture management is widely applied, and there is ample evidence that the stock carrying capacity of pastures may be doubled thereby. The system has been encouraged by the Department of Agriculture in Quebec, and this year the Ontario Crop Improvement Association has sponsored an extensive programme which includes the sowing of an approved pasture seeds mixture and the use of 4-12-6 fertilizer.

Young grass yields a rich protein feed high in carotene, source of the growth vitamin A, which imparts to milk, butter and cheese the creamy colour, quality and flavour typical of the products of spring pasture. As grass matures, its protein and other digestible nutrients decrease as the stems become fibrous. In ordinary hay, usually overmature, much of the feeding value has already disappeared, so that the animal has to consume a far larger bulk of dry matter in this form to obtain the nourishment contained in the green herbage of spring. How to preserve for winter feeding the qualities of green grass is a problem which has been tackled and partially solved by scientists. There was the A.L.V. process, promoted by A.L. Virtanen of Finland, in which acids were used in the ensiling of green grass, alfalfa, clover, etc. Then molasses came into use for the purpose and proved successful when the operation was performed with reasonable care.

A further attempt to preserve the virtues of green herbage is represented by the process of oven drying at a temperature of about 140°C. The grass is cut when approximately four inches high. Under favourable conditions several cuttings can be made during the season, rapid growth being promoted by fertilizer applications. In England, grass drying has proved fairly profitable, and a finished product containing about 17% of protein has been obtained. The latest novelty in hay curing is reported from the Ohio Experiment Station where alfalfa was cut and mowed the same day, the hay being dried in the barn by means of forced ventilation through a system of flues in the mow. It is said the hay retains its fresh colour.

Few who have not already done so could be persuaded to adopt any of these new-fangled ideas in present times of impaired facilities, the chief of which is labour shortage. But without the expenditure of additional energy or cost, every farmer can save protein and other digestible nutrients in his hay crop by heeding the oft-repeated advice to cut early, before the stems become woody, a condition which sets in rapidly once the flowering stage is reached. This is true of all herbage plants. Alfalfa should be cut not later than when the first blooms appear. Even if the weather should seem unpropitious, more may be lost by delay in harvesting than by the effect of rain on the cut hay. Besides, early cutting gives the second crop a better chance for full development.

World of Wheat

H. G. L. Strange,
Director, Research Department,
Searle Grain Company, Ltd.

DEMONSTRATION PLOTS

At most of their elevators of the Companies supporting the "Crop Testing Plan," that is the Searle, Home and Midland and Pacific, will be found growing a Demonstration Plot set up especially for the use of farmers, each plot containing six or seven varieties of wheat, oats, barley and flax respectively. All the standard varieties are included, and in addition some new varieties as yet unnamed under special numbers.

Every farmer should attempt to visit one of these plots if he can do so, for he will be able to see with his own eyes how the different varieties behave in his own district, and under the special conditions of that district. There is no one variety of any kind of crop that is suitable everywhere in the West, because the soil and the climatic conditions themselves vary greatly, but when one can see the varieties all growing next to each other one can discern with the eye instantly those varieties that do well and those that do poorly in the particular district.

In addition to the Demonstration Plots sown by the Elevator Agents, many plots have been sown by country schools. Certainly every farmer, or any other person who takes the trouble to look at these plots, would learn a good deal from them.

ITEMS OF INTEREST IN

THE WORLD OF FOODSTUFFS
The War Foods Administration reports that during 1944-45, rye supplies in the U.S.A. will be the smallest since 1937 if the harvest is no larger than now indicated. Despite increased acreages, Egyptian cereal yields declined somewhat in 1943. Severe drought has caused a delay in Cuban corn planting.

The outlook for the new crops in the Prairie Provinces remains generally promising. The Uruguayan corn crop is estimated at the record figure of 9.6 million bushels, compared with the 1943 crop of 1.6 million bushels. Argentina's exportable wheat surplus was recently placed at 251,304,000 bushels, compared with 171,701,000 bushels at the same time a year ago.

KILL FLIES, THEY SPREAD DISEASE

The common housefly is one of the greatest enemies of public health. It is well-known that dysentery, infantile diarrhoea, typhoid and tuberculosis have been carried by flies and it has been demonstrated that flies may be the possible spreaders of infantile paralysis. They breed in filth, they feed on filth, and pass directly from the foulest of filth to human food, carrying bacteria and particles of decomposing matter on their hairy bodies and sticky feet and mouths. Yet they are tolerated in some homes and in some shops offering human food and fruit for sale.

The most effective method of combating the house fly is to destroy its breeding places. This is best done through community action involving the proper care and disposal of manure, garbage and other waste materials. A leaflet outlining the methods to employ may be obtained free of charge from the Publicity and Extension Division, Dominion Department of Agriculture, Ottawa. It is especially important to protect foodstuffs from contamination by flies. Doors and windows should be properly screened and flies that invade the home in spite of this should be promptly killed.

A new insecticide has been discovered by the code letters DDT which when sprayed in a five per cent solution in kerosene on the interior walls of stables, barns and other buildings remain effective as a fly killer for several weeks. At present this is only available for military use in protecting the armed forces overseas from disease-carrying insects of various kinds. After the war it will be a valuable addition to the civilian's armory of weapons in the fight against the insects.

How's Your Subscription Label?

cord figure of 9.6 million bushels, compared with the 1943 crop of 1.6 million bushels. Argentina's exportable wheat surplus was recently placed at 251,304,000 bushels, compared with 171,701,000 bushels at the same time a year ago.

CAMPERS BEWARE OF POISON IVY

In the comprehensive arrangements of the Canadian authorities for the training and welfare of the fighting forces, the evil effect of poison ivy was not overlooked. Of all skin-irritant plants in North America, poison ivy is one of the worst. It grows under a variety of conditions, wet or dry, shaded or exposed, and in any soil from pure sand or rocky ground to rich woods or fields. It is often plentiful in stretches of unoccupied land.

But because poison ivy is prevalent on shores and rocky situations especially by wooded lakes and highland regions so attractive to campers and summer cottagers, the danger of poisoning should always be borne in mind, for the simple reason that in these out-of-the-way places it is difficult to get rid of the plant. Full description of the plant and its several different habits of growth, together with information on treatment after contact are given in Circular 574 "Poison Ivy", which may be obtained by writing to Dominion Department of Agriculture, Ottawa.

RUBBER RINGS FOR HOME CANNING

Ever since the Japanese seized the principal source of natural rubber it has been an extremely scarce commodity. In order to provide sufficient for the fighting forces use in civilian manufacture has been curtailed. The technical officers of the Department of Munitions and Supply in conjunction with the Dominion Department of Agriculture, the War Time Prices and Trade Board, the National Research Council, and the manufacturers have looked into the matter of rubber rings for canning jars and several months ago developed specifications which will provide satisfactory rings.

So far, technical difficulties have made it inadvisable to use synthetic rubber for this purpose. Experiments are being conducted and these difficulties may yet be overcome. Meanwhile, the highest grade reclaim obtainable is being used.

Last fall complaints were received and through the co-operation of housewives actual jars of fruit, sealers, rubber rings and screw tops were examined. All these exhibits were carefully tested, and in some cases investigators went into the homes and made tests on other cans of fruits and vegetables. As a result of these careful investigations it was determined that only a fractional percentage of the spoilage could be attributed definitely to faulty rubber rings. There are many factors which enter into successful canning and often it is impossible to ascertain the precise reason for failure.

To assist women in employing the most modern home canning methods, the Dominion Department of Agriculture, has issued a booklet entitled "War-time Home Canning of Fruits and Vegetables" which can be obtained without charge from the Dominion Department of Agriculture, Ottawa.

To be outgoing may not always be easy but to be easy going these days is always "out".

Only a new era of human living will make it worth while for so many to give their lives.

The real clash these days is not between right and left but between right and wrong. And the answer is not compromising on a middle way but going all the way to put things right.

Neither tiredness nor laziness is an excuse for lesser living or for lesser caring.

More men like to seek the truth than like it when they find it.

Some know not what they do. Others do not what they know.

If you give yourself to make your guests feel at home, you'll no longer wish they were.

**ONE MAN'S INCOME
IS ANOTHER MAN'S
OUTGO...**

If rising prices and costs were allowed to keep pushing each other up, inflation would be unavoidable. That's what inflation is—a panic rise in prices—with money losing its value and confusion everywhere. To prevent inflation, a ceiling has been set on prices and profits,—wages and salaries have been controlled.

If one person demands higher prices—another higher profits—another a higher wage or salary—soon everybody would be making the same demands—demands on everyone else.

Then costs of production could not be controlled.

The ceiling could no longer be held.

Living costs would go up—

and income begin their frantic rise.

ECONOMIC STABILITY IS NECESSARY TO MEET THE PRESENT PROBLEMS OF WAR AND TO PROVIDE A BASIS FOR PEACE

LISTEN TO "IN THE SPOTLIGHT" RADIO PROGRAMME EVERY SUNDAY NIGHT 7:30 p.m., E.D.T.

This is one of a series being issued by the Government of Canada to emphasize the importance of preventing further increases in the cost of living now and deflation later.

Hints for the Household

RIPE STRAWBERRY JAM
4 cups prepared fruit
6 1/2 cups sugar
1 box powdered fruit pectin

To prepare fruit, grind about 2 quarts fully ripe berries, or crush completely one layer at a time so that each berry is reduced to a pulp.

Measure sugar into dry dish and set aside until needed. Measure prepared fruit into a 5- to 6-quart kettle, filling up last cup or fraction of cup with water if necessary.

Place over hottest fire. Add powdered fruit pectin, mix well, and continue stirring until mixture comes to a hard boil. At once pour in sugar, stirring constantly. (To reduce foaming, 1/4 teaspoon butter may be added.) Continue stirring, bring to a full rolling boil, and boil hard 1 minute.

Remove from fire, skim, pour quickly. Paraffin hot jam at once. Makes about 10 glasses (6 fluid ounces each).

ORANGE JELLY
(Using orange and lemon skins)
2 1/2 cups juice
4 1/2 cups sugar
1/2 bottle fruit pectin

To prepare juice, use skins from 8 medium oranges and 2 medium lemons and put through food chopper twice. Add 3 cups water and juice of 2 lemons. Bring to a boil and simmer, covered, 30 minutes. Place in jelly cloth or bag and squeeze out juice.

Measure sugar and fruit juice into large saucepan and mix. Bring to a boil over hottest fire and at once add bottled fruit pectin, stirring constantly. Then bring to a full rolling boil and boil hard 1/2

minute. Remove from fire, skim pour quickly. Paraffin hot jelly at once. Makes about 7 glasses (6 fluid ounces each).

THAT GOOD OLD STANDBY
Rice pudding has been, will be, is a satisfying dish. It's very healthful, pleases all. What more can woman wish? Grandmother had her recipe mother's was strictly new, times change and, so do recipes. So this one is for you.

Rice Pudding
1 package prepared vanilla cornstarch pudding, 2 1/3 cups milk, 1 cup cooked rice, cubes of jelly.
Place pudding powder in saucepan. Add milk gradually, stirring constantly. Place over medium flame and cook until mixture comes to a boil and is thickened, stirring constantly. Fold in rice. Cool, stirring occasionally. Turn into dessert dishes. Chill. Garnish with cubes of jelly. Makes 6 servings.

Nutrin Rice Pudding. Add 1/4 cup raisins and 1/2 to 1/4 teaspoon each nutmeg and cinnamon to pudding powder before cooking.

The recipe below is a "Happy Day" recipe for a "Happy Day" cake. Simple as can be. Easy on your ration coupons. But oh, how satisfactory!

Happy Day Cake
2 1/2 cups sifted cake flour; 2 1/2 teaspoons double-acting baking powder; 1 teaspoon salt; 1 1/2 cups sugar; 1/2 cup vegetable shortening; 1 cup milk; 2 eggs, unbeaten; 1 teaspoon vanilla.

Sift flour once, measure into sifter with baking powder, salt, and sugar. Have shortening at room

temperature; stir just to soften. Sift in dry ingredients; add 1/2 of milk, eggs and vanilla. Mix until all flour is dampened; then beat 1 minute. Add remaining milk, blend, and beat 2 minutes longer. (Time may be taken out to rest, but count only actual beating time.)

Turn into two 9-inch layer pans. Pans should be greased, lined on bottoms with waxed paper, and greased again. Bake in moderate oven (375°F.) about 25 minutes.

Note: If electric mixer is used, proceed as directed above, using low speed. Scrape down bowl and beater often during mixing.

It's a wise woman who seeks new foods and chooses from them those that please and nourish her family. Have you used soy flour in your griddle cake batter? If not, by all means try the recipe below:

Soy Griddle Cakes
1/2 cup soy flour; 1 cup all-purpose flour; 2 teaspoons double-acting baking powder; 1/4 teaspoon salt; 2 tablespoons sugar; 1 egg, well beaten; 1 1/2 cups milk.

Sift flours once, measure, add baking powder, salt, and sugar, and sift again. Combine egg and milk; add gradually to flour, beating only until smooth. Bake on hot, greased griddle. Serve with butter and maple-flavored syrup. Makes 12 to 15 griddle cakes.

Here is an ice cream recipe that you may use, even today:

Fluffy Ice Cream
1/2 package (scant 1/3 cup) ice cream powder (vanilla, strawberry, or chocolate flavor); 1/2 cup milk; 1 1/2 cups light cream; 1 egg white; 2 tablespoons sugar.

Place ice cream powder in bowl. Add milk and cream gradually, stirring constantly. Beat egg white until stiff, but not dry; add sugar gradually and continue beating until mixture holds up in peaks. Add ice cream powder mixture gradually; blend. Turn into freezing tray, setting control for coldest freezing temperature. When par-

tially frozen, remove from tray and beat with rotary egg beater. Return to tray and freeze until firm. Freezing time: 3 hours. Makes 1 1/2 pints.
For chocolate flavor, increase sugar to 4 tablespoons, adding half to ice cream powder mixture and half to beaten egg white.

HEALTH

A HEALTH SERVICE OF THE CANADIAN MEDICAL ASSOCIATION AND LIFE INSURANCE COMPANIES IN CANADA

CANADA NEEDS A NATIONAL DEPARTMENT OF HEALTH

The establishing of three new departments of government—Social Welfare, Veterans' Affairs, and Reconstruction—was recently announced to Parliament by the Prime Minister. The Department of Reconstruction, as its name implies, will advance and co-ordinate the broad program designed to meet post war needs. The proposed Department of Social Welfare will be responsible for the administration of insurance measures and those functions in the field of public health which are under the Health Branch of the Department of Pensions and National Health. The work of the Pensions Branch will be assumed by the new Department of Veterans' Affairs. The Department of Pensions and National Health will cease to exist. Hospitalization of returned soldiers which forms such an important part of the program of the Department of Pensions and National Health, will be a responsibility of the Department of Veterans' Affairs. There will therefore be a separation of hospitalization, which is essentially a health matter, from the department charged largely with the responsibility for health, since the work of the Health Branch of the Department of Pensions and National

Health will presumably be administered by the Department of Social Welfare.

It is most disappointing that, if the proposed measures are adopted Canada will no longer have a national health department, even though the health services may be included in the broad designation "social welfare". This reorganization raises the whole question of the status of public-health services in the Federal Government. When the Department of National Health was established in 1919, following more than forty years of effort by leaders of all parties, there was wide-spread approval of centralizing public-health work in one department which would be represented in the Cabinet by the Minister of Health. In June 1928, however, when the Department of Soldiers' Civil Re-establishment ceased to function, the administration of veterans' affairs was transferred to the Department of National Health, which thereafter was known as the Department of Pensions and National Health. At that time public-health leaders felt concern lest the magnitude of the responsibilities of pensions might overshadow those of national health that progress in health work would be retarded. And although much has been accomplished, the disparity between the budgets of the two divisions has been striking, even taking into account the much larger appropriations necessarily required by the Pensions Branch. Today, sixteen years after the amalgamation of the two departments, the budget for pensions is approximately fifty times that for national health.

Now, the progress of the past twenty-five years seem likely to be jeopardized as a result of the proposed reorganization. It is appreciated that the term "social welfare" in its full significance, implies due regard for health and that, without health, social welfare is impossible. Yet it seems most desirable that, since public-health and medical services are fundamental to social security, the words "national health" be included in the title of the proposed Department of Social Welfare in order that there may be a public consciousness of its importance—a consciousness which is essential to the achieving of all that social welfare implies. The omission of "national health" from the name of this department is likely to constitute a serious handicap to the advancement of public health in the post-war years and it is earnestly hoped that it is not too late to permit of further consideration being given to this matter.

CANADA NEEDS WASTE PAPER

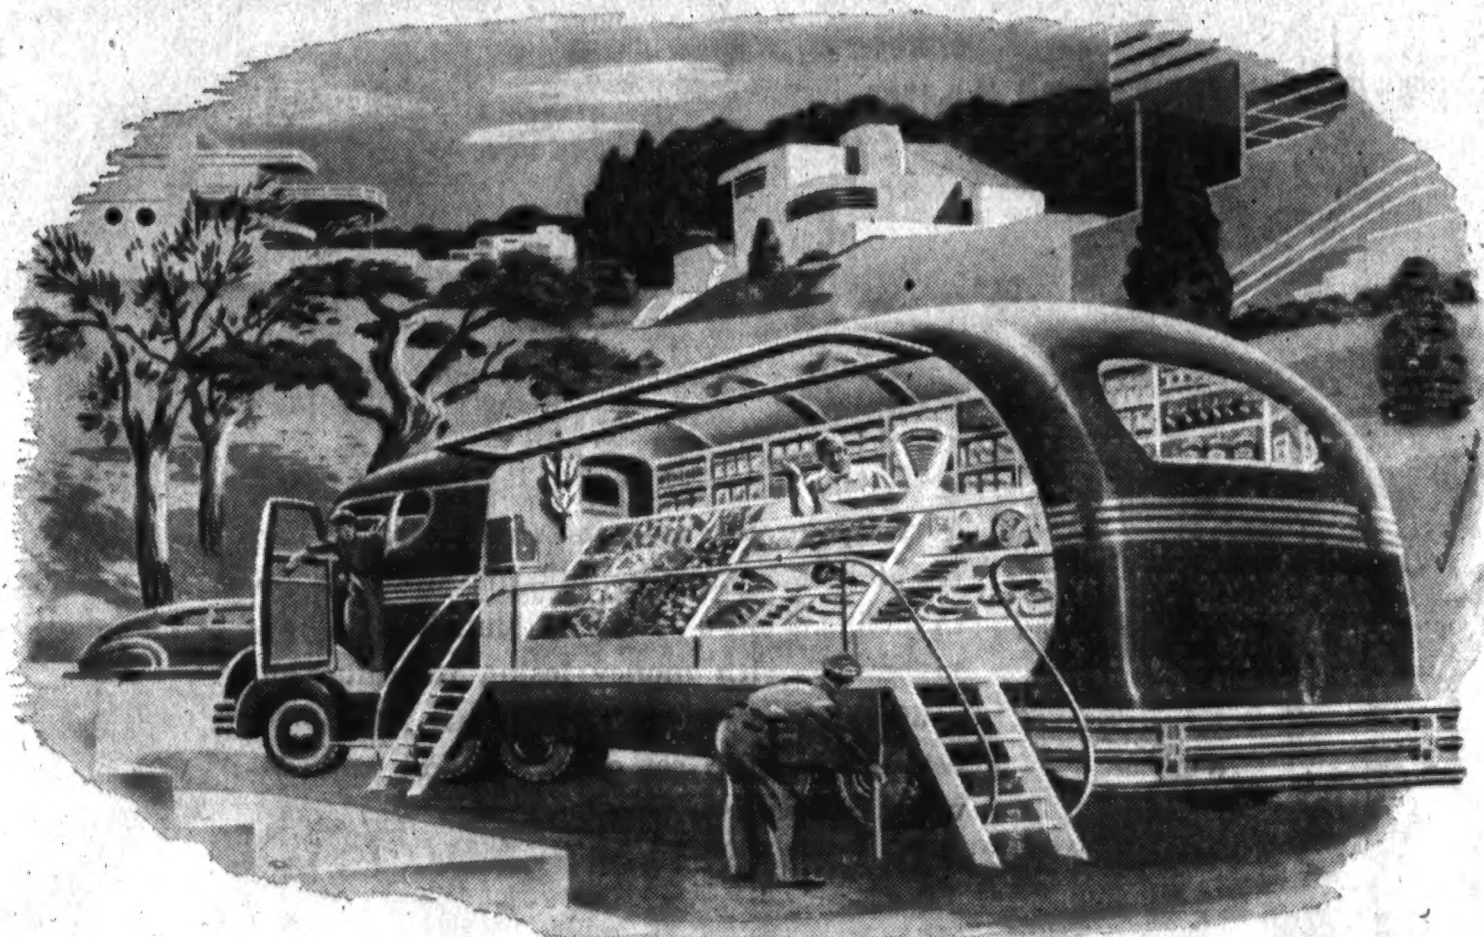

Canada needs over 20,000 tons of waste paper a month. Housewives are asked to save all boxes and cartons, and give or sell them to a salvage Committee, Patriotic organization, dealer or peddler. Whoever takes paper, it finds its way to the paper mill.

Men, 30, 40, 50!

Want Normal Pep, Vim, Vigor?
Try Oxeer Tonic Tablets. Contains tonic, strimulant, iron, vitamin B₁₂, calcium, phosphorus, aids to normal pep, vim, vigor, vitality after 30, 40, or 50. Introductory size only 50c. HERE'S YOUR AUTOMARKET, MADAM... the gift of men who think of tomorrow

MEAL PLANNING AND MEAL BUYING will be a cheer instead of a chore when groceries on wheels rush fresh foods to the housewife's door! Spotless, glass-roofed giant trailers, stopping in every block, will open up one side, creating platform and steps... and madam's grocery and meat market is ready for business.

HOUSEKEEPING will become a high and thrilling adventure when the time comes for turning airplanes back into refrigerators and kitchen sinks. You'll see food-mixers that almost "think", air conditioners that keep a house dust-free, and rugs cleaned in a jiffy by electronic "sweepers". These and a score of other household "miracles" are being planned for you by MEN WHO THINK OF TOMORROW!

• But only if we perform our appointed tasks today will there be a tomorrow to look forward to. There is a war to win first!...

• At no time in history have the people of a nation had so great a responsibility for the victory of their armies. It is everyone's war... everyone's job to keep up production, to cooperate in salvage and conservation programs, and above all, to help finance the war with their dollars by buying and keeping Victory Bonds and War Savings Certificates.

• Tomorrow is for us all! Let's work for it! Let us all be MEN WHO THINK OF TOMORROW!

THE HOUSE OF SEAGRAM

All Seagram plants in Canada and the United States are engaged in the production of high-proof alcohol. High-proof Alcohol for War is used in the manufacture of Smokeless Powder, Synthetic Rubber, Navigation Instruments and many other wartime products.

INVITING YOUR PATRONAGE

When harvesting starts this season considerable space will be available for deliveries of grain in country elevators. Many customers of Alberta Pool Elevators have been prevented from delivering to these elevators in the past few years due to congestion of facilities. This fall they will likely have the opportunity of again becoming patrons of this farmers' grain organization.

Travel By Bus

Here's how you can help with our Nation's Transportation problem:

1. Travel on Tuesdays and Thursdays — instead of on crowded week-ends.
2. Avoid traveling on holidays, or during rush seasons.
3. If you are sometimes inconvenienced, smile it off as a contribution to winning the war.
4. Consult your Agent or Driver for travel information.

ECONOMY

INVASION MAKES MORE URGENT THE SAVING OF CIVILIAN GAS!

A Message to Canadian Motorists

THE invasion of Europe has thrown a vast and critical burden upon the petroleum resources of the United Nations.

In the first eight days of the campaign alone Allied aircraft flew 56,000 sorties. Many thousands of oil-burning warships and landing barges are shuttling ceaselessly across the Channel. Tanks, trucks, jeeps, mobile artillery, ambulances, by the thousands, are in action.

The driving power behind all this activity is petroleum — gasoline and fuels drawn from a dwindling crude oil supply. But — there is only so much oil. If existing supplies are to prove adequate, the most stringent economy of gasoline and fuel oil must be practised here at home.

Canada is able to produce only 15% of her own gas and oil needs. The remainder must be imported from the common pool of the United Nations and the bulk of this is shipped here by tankers. Critical manpower is needed to produce our gasoline and oil. Precious lives and precious ships

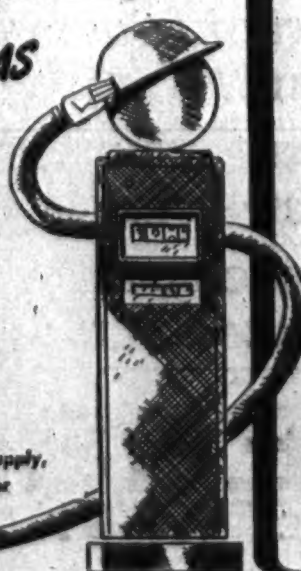

must be risked to deliver it to our shores.

Invasions, and the difficulties of supply and transportation are not our only problems. Right here in Canada gas and oil are needed in enormous quantities for vital war purposes. The Commonwealth Air Training Plan has consumed as much as 548,000 gallons in a single day. Canada's Navy — expanded since war began from 15 ships to 650 — consumes over 2,150,000 gallons every week. Army training, war plant operation, food production, essential trucking — all are huge consumers of gasoline and petroleum products.

Gasoline is ammunition — ammunition of which we have all too little. To waste a gallon of it is a crime against our fighting men.

LESS CIVILIAN GAS
MEANS MORE
"FIGHTING
GAS"
FOR THE FORCES

An announcement issued by
The Department of Munitions and Supply,
Honourable C. D. Howe, Minister

Answering Your Questions about the Gasoline Shortage

How much gasoline was consumed during the 54 days of pre-invasion bombing? ... More than 200,000,000 gallons.

How much fuel oil does a battleship take in one refueling? ... Enough to heat an average house for 350 years.

How much fuel does one armoured division consume in every five miles of advance? ... 10,000 gallons.

How many gallons of petroleum products are required to supply the needs of 500,000 European invasion troops for a week? ... Over 25,000,000 gallons.

NEWS & VIEWS OF TOWN AND DISTRICT

BORN—To Mr. and Mrs. W. Woodward of Wainwright, at the Wainwright municipal hospital on July 7th, a boy.

Mr. Ed. Dahl left last week end to spend a few days holidaying with relatives at Wetaskiwin and other points.

Mr. and Mrs. R. Snyder received word last week that their son, Lt. Kirk Snyder had arrived safely overseas. This is his second trip to the fighting front.

Mr. Fred Ganderton is away to the coast for a holiday with friends there.

Miss Vera Karendine returned Monday night after spending a short holiday with her parents and sister at their home at Drumheller.

Mr. and Mrs. Neil Heslop are here from the East on a visit after visiting Mr. Heslop's parents at Viking. They are leaving shortly to take up residence in Vancouver. Mrs. Heslop was the former Miss Hazel Brunker.

Mrs. M. Forrest left last week end for a visit to friends in Calgary, and to take in the big stampede there.

After a somewhat tiresome drive home through the storm of last week, Mr. and Mrs. H. U. Taylor and Mr. and Mrs. McAfee returned from the motor holiday to the coast.

The casualties list of last week end gave the name of Ronald F. Seabrook as wounded in action overseas.

Mr. Ted Carrier, formerly with the Bank of Montreal at this point was here over the week end from Lethbridge to visit friends.

Miss M. Tolmie is home with her parents on vacation from her nursing duties at a Lethbridge hospital.

To spend a three-weeks holiday with her parents Miss M. Ganderton is here from Edmonton.

It is learned that Mr. L. Bean purchased the Fish property on Third Avenue east during the past week.

Lieut. R. Armstrong left on Saturday with Mrs. Armstrong to spend a furlough with relatives at the coast.

Tuesday's news stated that Pte. L. J. Alexander of Wainwright had arrived in Calgary from service overseas.

Mr. and Mrs. Paul Kaufman are here from Snoqualmie, Wash., U.S., to visit their relatives in town for a holiday.

After an extended holiday spent with their daughters in Toronto and other relatives in the East, Mr. and Mrs. W. LaFrance returned to their home here the first of the week.

Mrs. Axel Peterson, of Ribstone, reports using her new garden potatoes on June 28th; and says they were dandies, too!

Mr. M. D. Meade, the C.C.F. candidate for legislative honors in the Wainwright constituency, opened his speaking tour for the current campaign with a meeting at Jarow on Tuesday evening.

A couple of break-ins occurred on Friday night last, when the Atlas Lumber Co.'s office and the Hostess House in town were the premises forcibly entered. Very little of value was found missing. The police have the matter in hand.

Preliminary work started on Tuesday morning for the property purchased some time ago by Canadian Oils Ltd., at the corner of Fifth and Main, where we understand it is intended to erect a modern gasoline and oil station.

The Gilt Edge S. S. picnic is being arranged to be held at the Gilt Edge Orange Hall on Wednesday next, July 19th.

Charlie Lilly and his wife are here visiting their parents, while "Chum" is enjoying a respite from his army duties.

The big annual Gilt Edge picnic is dated for Friday next, July 14th at the Gilt Edge park. All kinds of sports will be held in the afternoon and a big dance in the hall will wind up the affair at night.

Mr. Geo. Gregson returned on Monday after a short holiday from his duties at the gas office.

In furtherance of the projected post-war highway programme of the United States-Canada-Alaska Prairie association, President Smith of the Board of Trade is getting busy with the claims of our Highway 14, so that this district may get its car in to keep the claims of this district before the powers that be.

O/Tel. Gordon Torrance left on Monday to resume his navy duties after a furlough spent with his parents in town.

If we learn to inspire more we will need to correct less.

Tolerance can be just a form of isolationism, minding your own business without caring what happens to the other fellow.

It's the little differences that lead to the big spills.

COMING EVENTS

The Wainwright and District Credit Union will hold a Gala Picnic at King's Park, Fabyan, on Wednesday, July 19th, when Mr. C. Gould, deputy supervisor of Credit Unions will speak. Sports, Refreshment Booth; Come and bring your picnic supper. 12-7

Set your date now for the Annual Gilt Edge Picnic to be held at Gilt Edge Park on Friday next, July 14th. Sports, Baseball Games, Horse Races. Coffee and hot-dog stand. Dance in hall at night. Everybody welcome. 12-7

The members of Fabyan R. C. church are arranging their annual picnic to be held at King's Park, Fabyan, at 2 p.m. on Wednesday, July 26th. Refreshment booth, all kinds of games. Chicken supper 5 p.m. and big dance in Fabyan school at night. Everybody welcome.
